

HOLLY STIEL PROGRAM DESCRIPTIONS

Train the trainer

Many workshop participants have expressed the desire to bring Holly's teachings back to their organizations. Now you can!

Through the products that Holly's partners at Stielmedia have developed, it is now possible to share **The Neon Signs of Service** with everyone in your company on DVD.

Holly will work one-on-one with your team members in an on-site training, enabling them to teach her exclusive material in conjunction with the DVD.

This is the most effective way to ensure that Holly's skills become part of your service culture.
